	Soft-close® ACC • For face frame doors	14
	Soft-close® AL • For aluminium frame doors	16

Elegant design and fascinating engineering.
The perfect combination of the hinge series CST Twin NT
with Soft-close® CST.

Feel like something quiet? Then use Soft-close® CST.
Experience – how doors move in a floating motion.

The future is entering into all furniture. Either kitchen, bath or furniture, Soft-close® CST can be installed immediately or be mounted onto CST Twin NT after the hinge is already installed. Fast, secure and completely toolless. The number of Soft-close® CST installed depends on the door size and weight. Please use the recommended data from the chart.

Twin NT hinges and Soft-close® CST are the perfect match in functionality. The system indicates directions by the harmonizing perfect design. The design developed by Mepla-Alfit is unique and defines a new closing of doors: The motion of the doors is softly slowed down and the door self closes softly and quiet – the perfect balance between form and function.

Soft-close® CST – quick and easy to install.

Mounting is toolless, easy and quick:

Please check:

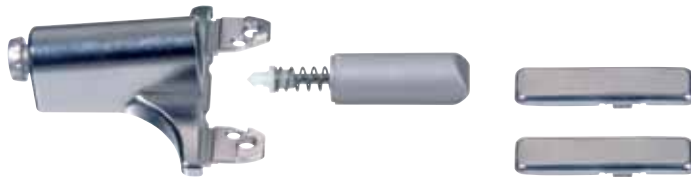

Are locator pins attached to the hinge cup?

- 1 Take door off the cabinet, remove cover cap (if installed) on oo cranking hinges , open flap of hinge cup.
- 2 Insert Soft-close® CST adapter onto locator pins which are attached to the hinge cup.
- 3 Close Twin NT flap of hinge cup completely.
- 4 Insert Soft-close® damper completely into Soft-close® adapter with the flattened side pointing down.
Click-on cabinet door to mounting plates.
Mount cover cap on hinge if desired (cover cap is included in set).
- 5 Adjust Soft-close® CST to different opening angles and cranking if necessary via adjustment screw.

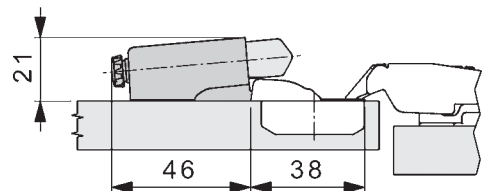

Soft-close® CST

Suitable for CST o4, CST o5, CST 22, and CST 29 hinges

Soft-close® CST Set

1 Set consisting of:
1 Soft-close® CST adapter
1 Soft-close® CST damper
2 Hinge arm cover caps

Technical Information

-  Position for Soft-close® CST
-  Position for additional Soft-close® CST (recommended)

The installing of our furniture fittings must comply with the Mepla-Alfit instructions that are stated in our available sales brochures, otherwise Mepla-Alfit can't be held liable. If further information on installation and assembly is needed, please contact one of our factories directly.

Thank you for your understanding.

Warning

Usage of low grade board material or furniture doors undergoing constant rough usage, the screwing of the adapter with screws \varnothing 3 mm is recommended.

Soft-close® CST is not recommended for frame door application.

Elegant design and fascinating engineering.
The perfect combination of the hinge series CS Click-on
with Soft-close® CS.

Feel like something quiet? Then use Soft-close® CS.
Experience – how doors move in a floating motion.

The future is entering into all furniture. Either kitchen, bath or furniture, Soft-close® CS can be installed immediately or be mounted onto CS Click-on after the hinge is already installed. Fast, secure and completely toolless. The number of Soft-close® CS installed depends on the door size and weight. Please use the recommended data from the chart.

A matching hinge cup cover cap for the CS Click-on hinges without Soft-close® CS underlines perfectly the elegant design. The design developed by Mepla-Alfit is unique and defines a new closing of doors: The motion of the doors is softly slowed down and the door self closes softly and quiet – the perfect balance between form and function.

Soft-close® CS – quick and easy to install.

Mounting is toolless, easy and quick:

Please check:

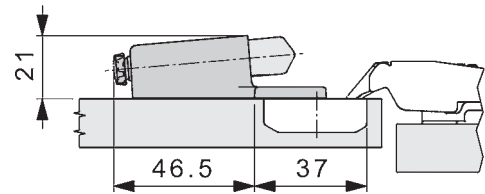

Are notches located on both sides of the hinge cup?

- 1 Take door off the cabinet, place it horizontal on a stable surface. Remove cover cap (if installed) on oo cranking hinges.
- 2 Insert Soft-close® CS adapter into notches located on the sides of the hinge cup and attach adapter.
- 3 Press both sides of the adapter downwards until you hear a noticeable “click”.
- 4 Mount cover cap on hinge if desired (cover cap is included in set).
- 5 Adjust Soft-close® CS to different opening angles and cranking if necessary via adjustment screw.
- 6 Use cover for hinge cup (included in set) for the hinge without Soft-close® CS to achieve a uniform appearance.

Soft-close® CS

For hinges CS04, CS 05, CS 22 and CS 29
