### RESOPAL CREATIVE SELECTION

(1) Einige Dekore „mit Rapport“ sind für eine Anpassung anhand der Musterkontinuität geeignet. Dekore „ohne Rapport“ können ohne Dekorkontinuität nebeneinander montiert werden. Some "repeatable" decors are more suited for fitting based on the pattern continuity. Decors "without repeat" fit side by side without a pattern continuity.

(2) Um eine präzisen Übergang zwischen zwei Paneelen zu realisieren, gibt es einen Zuschnittbereich. To realise a precise and optimized connexion between two panels, we anticipate a bleed area on the panel.
